

## Copay Max Coupon Maximizing Assistance

Amwins Rx understands that it is not always easy to afford your drug copays. To help save you money, your health plan has elected Amwins Rx's Copay Max Program. The Copay Max Program is able to offer assistance for both specialty and non-specialty drugs covered by your plan. By enrolling in the program, select drugs are available to you at little or no cost to you. - **Yes, even your copays could be waived!**

### How does the program work?

When you are on a drug that is eligible for the program, an Amwins Rx Program Coordinator will contact you to discuss enrolling in the Copay Max Program. They will then work with you to complete manufacturer's application and direct you the preferred in-network pharmacy. When you fill your prescription, you will only be responsible for the program amount.

*For Example, a patient may have a \$500 copay with their prescription insurance card. By enrolling in the Copay Max Program, that same patient will only have a \$5 out of pocket responsibility and the program covers everything else.*

#### Prescription Card

\$500

#### Program Covers

\$495

#### Your Responsibility

\$5

### Eligible Drugs

Not all drugs qualify for the program and not all members are eligible for assistance. Below is a listing of some drugs eligible for the program.

- Cosentyx
- Jardiance
- Simponi
- Eliquis
- Orencia
- Stelara
- Entyvio
- Ozempic
- Taltz
- Farxiga
- Skyrizi
- Xeljanz

Our team of Program Coordinators are here to assist you and look forward to speaking with you today. Please call 800-869-8759 to see how you can start savings money on your covered prescriptions!
